

THE SOUTHWEST SECTION  
OF THE  
AMERICAN ASSOCIATION OF PETROLEUM GEOLOGISTS

**Scholarships and Grants**

The Southwest Section of the American Association of Petroleum Geologists is offering scholarship assistance to deserving graduate and undergraduate students. To qualify, students should be engaged in geologic research, especially as it relates to the exploration for and development of petroleum, natural gas, and other energy minerals while enrolled in graduate or undergraduate studies in geology or geologically related fields. The deadline for applications to be submitted is **FEBRUARY 10, 2018.**

The requirements for each scholarship are explained on the application, but an abstract of the applicant's thesis, as well as a copy of their thesis proposal signed by their advisor, must accompany the application. The amount of the scholarships will be at the discretion of the Southwest Section Board of Directors but are generally between \$500 and \$1500.

The scholarships will be presented at the Southwest Section Convention in El Paso, TX, on **April 7 – 10, 2018.**

Although not required, we would encourage the recipients or any students doing scientific studies that relate to the geology in the Southwest Region to present their papers at the annual Southwest Section Convention. If requested and approved, the Southwest Section will help pay reasonable expenses incurred by any students presenting papers at the convention. Outstanding oral and poster presentations will be eligible for further awards.

We offer grant assistance to universities, middle schools, and secondary schools, within the boundaries of the Southwest Section, to support earth science education. Upon written request, the Southwest Section will consider financially supporting specific educational activities, projects, or equipment that will further the education as it relates to the geology.

Sincerely,

Eric Tangumonkem, Ph.D.  
Scholarship & Grants Committee Chairman  
Southwest Section of the A.A.P.G.

\* An abstract of your graduate thesis must be attached and signed by your advisor. To qualify for a graduate scholarship, the thesis should be oil and gas related and the area of study should lie within the geographical boundaries of the Southwest Section of the AAPG. If your school is within the Southwest Section, you may qualify even if your study area is outside of our boundary.
