

<b>TUESDAY - APRIL 10th</b>				<b>Mexico Basins and Oil &amp; Gas Fields</b>	
8:00	-	8:25	0:25	Alfredo Guzman	The Upstream in México Under the Energy Reform
8:25	-	8:50	0:25		
8:50	-	9:15	0:25	John Hattner	Mexico's Productive Plays- Past, Present and Future?
9:15	-	9:40	0:25	Dr. Tim Lawton	Jurassic Rocks in Chihuahua and Hydrocarbon Potential
9:40	-	10:10	0:30	Morning Break	
10:10	-	10:30	0:20	extended break for poster viewing	
10:30	-	10:55	0:25	Dr. Ricardo Padilla, Professor, UNAM	Mesozoic-Cenozoic Paleogeography of Mexico, including the Gulf of Mexico
10:55	-	11:20	0:25	Andrew Pepper	Implications of early Gulf of Mexico tectonic history for distribution of Upper Jurassic to mid Cretaceous source rocks in deep water exploration areas of US and Mexico
11:20	-	11:45	0:25	Fausto Vazquez	Secondary porosity and permeability calculation on heterogeneous carbonates of Eastern Mexico, using borehole images
11:45	-	12:10	0:25	Ray Earley	TBD - abstract coming in by Mar 9
12:10	-	13:25	1:15	DPA Luncheon - Chris Atherton, EnergyNet, Inc., President	Juarez Room
<b>Water Use and Production during Hydrocarbon Extraction:</b>					
13:25	-	13:50	0:25	Pei Xu	Produced Water Treatment and Reuse: Innovative Technologies & Decision Support Tool
13:50	-	14:15	0:25	Patricia DuBois	Permian Produced Water Disposal, Key Considerations for Minimizing Risk and Ensuring a Complete Well Life Cycle
14:15	-	14:40	0:25	Mark Engle	A multi-isotope approach to studying the source, origin, and history of produced waters from shale reservoirs: Examples from the Permian and Gulf Coast Basins
14:40	-	15:05	0:25	José Victor Contreras	Unsupervised Learning Applied to Hydraulic Flow Unit Identification Based on Wireline Formation Pressure Data
15:05	-	15:35	0:30	Afternoon Break	
<b>General Session</b>					
15:35	-	16:00	0:25	Alexei Milkov	Contribution of Mid-Continent Area to the U.S. Gas Resources: Results from 2016 Assessment of the Future Gas Supply by the Potential Gas Committee
16:00	-	16:25	0:25	Gary Rice	Background Determination in Petroleum Geochemical Exploration Data
16:25	-	16:50	0:25	Kevin Crane	Using Recent Geophysical Modeling Results in Oklahoma Help Develop Permian Basin Integrated 3D Geology and Geophysics Model Framework
16:50	-	17:15	0:25	William Ampomah	Performance Assessment of CO <sub>2</sub> -Enhanced Oil Recovery and Storage in the Morrow Reservoir
18:00	-	20:30	2:30	Close the Convention with the Chihuahuas! 2018 Opening Home Game for the El Paso Chihuahuas
